

Out of this world flooring at down-to-earth prices

THINGS TO CONSIDER WHEN CHOOSING A WOOD FLOOR

There are plenty of choices in wood flooring. The good news is that you'll never walk through a wood floor, and a wood floor elevates the value of your home immediately (usually in excess of the investment). The most important thing is to discover what is important to you and to fine tune your order appropriately.

- Budget
- Appearance
- Lifestyle (casual, formal)
- Anticipated Wear-and-Tear (kids, dogs, tenants)
- Format (solid / engineered, prefinished / unfinished)
- Hardness of the wood (resistance to denting)
- Stability of the wood (reaction to the presence or absence of moisture)
- Grade (Select, #1 Common, Knotty, Mixed Grade)
- Face width dimension
- Average lengths
- Finish (i.e. gloss level on prefinished flooring, type of jobsite finish for unfinished wood flooring)
- Quantity required
- Your significant other
